

# Lecture Series – Pitfalls and Solutions

## Good Experimental Design

The Office of the Dean for Research of the Faculty of Medicine invites qualified speakers to this lecture series to give a talk about good experimental design. The invited researchers will give you information on specific research topics and provide discussion opportunities with the goal to improve quality and reproducibility of your research data.

**Target group:** Clinician scientists and experimental scientists who are actively involved in lab research  
**Venue:** Video conference via ZOOM or Seminar room window, ZTZ  
 Breisacher Str. 115  
**Time:** 5:00 – 6:00 p.m.

Date	Venue	Topic
<b>09 December 2020</b> 5.00 p.m.	Video conference via ZOOM	<b>Conception and Planning of a Research Project</b> Speaker: Prof. Jürgen Hennig, Department of Radiology
<b>12 May 2021</b> 5.00 p.m.	Video conference via ZOOM or Seminarraum Fenster, ZTZ, Breisacher Str. 115	<b>Flow Cytometry</b> Speaker: Dr. Marie Follo, Department of Medicine I
<b>30 June 2021</b> 5.00 p.m.	Video conference via ZOOM or Seminarraum Fenster, ZTZ, Breisacher Str. 115	<b>Research Data Management</b> Speaker: Prof. Dr. Harald Binder, Institute of Medical Biometry and Statistics

Organised by the Office of the Dean for Research, Faculty of Medicine, University of Freiburg
